

## About Us

Established in the last quarter of 2018, Sierra Greenfields (SGF) is an Agribusiness Private Limited Company governed by shares of its members. In line with government priorities, the overall aim of SGF is to practically deliver agriculture to the people of Sierra Leone as the engine to fight hunger and poverty at household and national levels, whilst restoring/promoting the consumption of locally grown food, in particularly rice, the country's staple food.

In 2020, the company developed its Business Strategy that focused on 3 Agricultural Investment models.

Production, Processing and Agribusiness Development Centre with vision to optimize land to create wealth, achieve food self-sufficiency, and green environments.
